

We, the youth of the Arctic, believe more actions are needed to protect the Arctic and to move closer to the new sustainable paradigm.

"If we lose the Arctic, we will lose the Globe."

Sauli Niinistö, President of the Republic of Finland

OUR MISSION

Working with leaders to create opportunities for youth to impact today's and tomorrow's decision-making for sustainable development, conserving Arctic biodiversity, ensuring cultural equality, and mitigating anthropogenic climate change.

OUR CALL TO ACTION

For leaders to integrate the youth voices into decision making in all discussions and contexts.

We are raising awareness that young people are not only *future leaders* but are *current leaders*. Youth of the Arctic are valuable parts of the current political paradigm: we are leaders who advocate for climate action, indigenous culture, and sustainable development. We are a resource at your disposal.

Climate change is no longer a future issue. It is a current issue.

Arctic Youth Summit | Rovaniemi Declaration | Adopted October 10, 2018 | sanna.koskinen@wwf.fi
