

# Signed, sealed...but far from delivered

The EU has signed up to the UN Sustainable Development Goals for 2030  
But with no dedicated plan for how to reach them, it's falling short

6 CLEAN WATER AND SANITATION

Europe has lost **2/3** of its wetlands since the 1980s

7 AFFORDABLE AND CLEAN ENERGY

Harmful fossil fuels still supply **73%** of Europe's energy

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

We would need **2.6 Earths** if everyone lived like an EU citizen

13 CLIMATE ACTION

The carbon footprint of each EU citizen destroys **30 m<sup>2</sup>** of Arctic ice a year

14 LIFE BELOW WATER

**Nine out of ten** Mediterranean fish species are at risk due to overfishing

What now?

## WORDS INTO POLICIES

The EU must produce a strategy to implement the 17 Goals urgently

## POLICIES INTO ACTIONS

This strategy must transform EU policy-making, putting sustainable development at its heart
